It is in a perfect location that combines history, nature, beach, and relaxation. We present a home located in a unique building, designed in 1939 by architect Antonio Rubio Torres. This magnificent villa, built on a hillside, features numerous unique and singular elements, both inside and out, that will be carefully restored and enhanced. These include magnificent carved wooden doors, hydraulic flooring, elaborate wrought ironwork, exterior woodwork, and unique wooden viewpoints. The property has a total built area of 285m², including common areas, with 225m² of built living space, 174m² of usable space, and 71m² of terraces. It is distributed into an entrance hall, a spacious, bright, and modern living-dining room with access to a large 25m² gallery terrace, ideal for an outdoor dining area or chill-out zone, and access to a balcony. There is a fully furnished open-plan kitchen with a pantry area, a guest toilet, four bedrooms with built-in wardrobes, and four en-suite bathrooms. The master bedroom has access to a balcony with beautiful views, and another bedroom has access to a large 38.95m² terrace. Optionally, you can acquire an adjacent room with a built area of 24.20m² and 15.80m² of usable space, ideal for an office, playroom, guest room, gym, or any other desired space for €100,000 + VAT. The interiors are designed to the highest quality standards, using first-class materials with luxury finishes and exclusive installations. Notable features include porcelain floors by Porcelanosa, PVC double-glazed windows with anthracite grey finish, MDF white lacquered built-in wardrobes, fully equipped bathrooms with Porcelanosa faucets and sanitary ware, and a fully furnished kitchen with high and low cabinets by Gamadecor, equipped with Siemens appliances. A parking space is included in the price. The building is adapted for people with reduced mobility and has an elevator. Energy Certificates are in process.
